WORK EXPERIENCE

Senior Associate – Project, Software Testing

Cognizant | Client: RBC — **Pune, India**

Salesforce QA Engagement · Current

- Executed Salesforce QA across functional, regression, UAT, integration, and smoke testing — designed and executed 500+ test cases translating business requirements into test scenarios and validating CRM workflows for business-ready releases.
- Spearheaded Playwright automation using JavaScript/TypeScript, achieving 20–40% automation coverage on Salesforce test scenarios; integrated Jenkins for CI/CD-driven execution.
- Leveraged AI-assisted development tools for test-case generation and Jira bug creation, improving QA productivity while managing test execution through QTest and defects through Jira.

Key Tech: Salesforce · Playwright · REST Assured · Postman · JavaScript · TypeScript · AI-Assisted Testing · Jira · QTest · Jenkins

Associate Consultant (QA) – MS CRM

Cognizant | Client: Antares — **Pune, India**

2021 – Present

- Performed QA activities for MS CRM customer & policy management workflows, validating functionality against business requirements.
- Designed and executed test scenarios to support reliable CRM functionality and quality delivery.
- Collaborated with project stakeholders to analyze requirements, identify issues, and support successful application delivery.

Associate Consultant (QA) – MS CRM

Pragmasys Consulting | Client: Manipal Cigna — **Pune, India**

2019 – 2021

- Designed and executed functional, regression & re-testing scenarios, ensuring application changes met business requirements.
- Performed Web Services testing using SoapUI, analyzed test results, and managed defects through resolution.
- Supported UAT & production, collaborated with business stakeholders, and prepared user training documentation.

Associate Consultant (QA) – MS CRM

Pragmasys Consulting | Client: Suburban Diagnostics — **Pune, India**

2017 – 2019

- Analyzed requirements and created test scenarios, test data & test cases aligned with functional specifications.
- Executed functional, regression & re-testing, identifying defects and tracking closure through Redmine.
- Supported UAT & production users while providing daily test execution status and collaborating with stakeholders.
